

Scalability & Future Plan

Date	18 July 2026
Team ID	SWTID-2026-5023
Project Name	Rising Waters (Flood Prediction System)
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Small dataset	Lower prediction accuracy	High
2	Single-user access	Limited scalability	Medium
3	Limited visualization	Reduced insights	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Single User	Multi-user deployment
2	Data Storage	CSV Files	Cloud Database
3	Performance	Local Execution	Cloud Hosting
4	Security	Basic	Authentication & Encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Real-time rainfall data	1 Month	Better accuracy
Phase 2	Mobile Application	2 Months	Accessibility
Phase 3	Cloud Deployment	3 Months	Scalability
Phase 4	Government Alert Integration	6 Months	Real-time disaster management
